- Reduced infrastructure costs by 40% trhough Azure optimization.
- Generated $800,000 annual saving ($600K in reporting, $200K in maintenance.
- Reduced manual data entry by 75% through automated reporting.

Agility's Impact at the USDA

Agility stands as a premier authority in Full-Life Cycle Federal Budget, Accounting and Reporting, bringing unparalleled expertise to every financial challenge. Our team of specialists possess extensive knowledge of critical Federal Financial Systems including SAP and Momentum, enabling seamless integration and optimization across platforms. Having successfully managed some of the most complex financial transitions in federal government, from reservations and advances to obligations and de-obligations, and payments, we deliver precision and compliance when stakes are highest, ensuring your agency's financial operations maintain impeccable integrity.

For one of **USDA's largest agencies**, Agility engineered a sophisticated custom reconciliation application that seamlessly harmonizes transactions across multiple disparate systems of record. Built with future-proof open source architecture, our solution harnesses the power of Python, R, PowerQuery, PowerBI, and SQL for comprehensive data mining and analysis. This innovative approach demonstrates our commitment to developing tailored solutions that not only address immediate reconciliation challenges but establish sustainable frameworks for long-term financial transparency and accountability.

Our Mission

At Agility, our mission is to deliver results that increase both time and cost efficiencies for our clients. The business practices we implement allow us to achieve mission critical tasks on time and on budget. We strive to reduce unnecessary barriers so that we can work with what is strictly necessary. We approach every issue with a solutions-based mindset that enables us to the see benefit of every opportunity.

Who We Are

Agility Consultants is an efficiency partner. We provide a multi-dimensional solution to overcome your operational challenges. With over a decade of experience working in the federal sector, we have worked on numerous projects providing expertise in Project Management, C-Suit Level Direction, Data Analysis, IT Services, Quality Assurance and On-Site Field Work with a focus on product-based deliverables. We strongly believe in the quality of work produced by our team for our clients, and the Country. Breaking down silos and increasing communication increases product quality while reducing risks of knowledge gaps. With staff working in unison and across teams, Agility is able to provide a high quality work product while cutting costs, passing the savings onto the client.
